

## Adjustable Feet

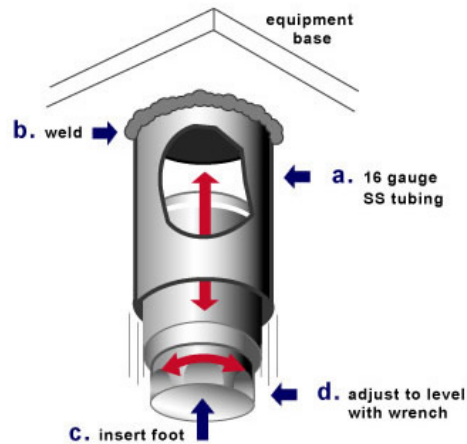

This unique **leveling device or leveling mount** is great for machines. It is easy to install and to adjust. It comes in two sizes with a weight rate of 1600# and 2300# per foot. Leveling mount buyers should know that this product is designed for balancing machines or rising machinery. These stainless steel leveling feet are easy to install and fit into round tubing. They are able to level equipment up to 2300 lbs. of weight using expansion rings and spring-loaded lugs. We carry them in sizes: 1 1/2 in. and 2 in. If you have any questions about this product or would like to place an order, please call L.C. Penner Company.

### CHARACTERISTICS:

- Adjust 2 5/8 inches.
